COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

MAJOR ROAD / HIGHWAY / BRIDGE CLOSURES

Lifeline Route Closures

Northern California	Central California	Southern California
No Lifeline Route Closures	No Lifeline Route Closures	No Lifeline Route Closures

Lifeline Routes:

- There are no Lifeline Route Closures.

Non-Lifeline Routes:

- Butte and Plumas Counties: SR 70 is closed from Jarbo Gap (Butte County) to Greenville Wye (Plumas County) due to a mudslide.
 - On 06/12/22, a total of five areas of debris flows/slides occurred due to severe thunderstorm activity in areas of Dixie Fire burn scars.
 - There is no alternate route available. - The District has not provided an official detour for motorists around the closure.
 - Motorists are advised to use an alternate route. - Motorists should research and find the best means of utilizing other alternate/open routes to reach their desired destinations on either side of the closure.
 - A passible section of roadway has been established within the debris area for use by emergency vehicles.
 - Estimated time for one lane to be reopened to all traffic under 24/7 traffic control with 30-minute delays is 07/01/22.
- Click [here](#) for a list of current road closures.

Wildfire Closures:

- There are no Wildfire Closures.

Emergency Operations Center Activations:

- There are no Emergency Operations Centers activated.

FIRE ACTIVITY

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Nothing significant to report.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Hot with thunderstorms into the weekend for portions of Lassen, Modoc, Mono, Nevada, Placer, Plumas, Sierra, Alpine, and El Dorado Counties. An increase in thunderstorm chances is expected each afternoon into the weekend.
- The thunderstorm threat migrates northward into the Sierra, and northeast California Wednesday (15-20% chance) and Thursday (20-40% chance). Isolated chances will continue into the weekend.
 - Hazards with these thunderstorms will include lightning with new fire starts possible, gusty/erratic winds, heavy rainfall with an elevated risk for flash flooding and debris flows on recent burn scars, small hail, and rapid temperature drops.
 - Stay away from recent burn scars as heavy rainfall can create dangerous debris flows.
- Typical westerly breezes with speeds 20-30 mph kick back up Wednesday through the weekend. Low relative humidity may create locally critical fire weather conditions during this time period.

SOUTHERN CALIFORNIA

- No significant weather of concern.

Weather Key Points

Regional Operations Center

Western Region

Wednesday, June 22

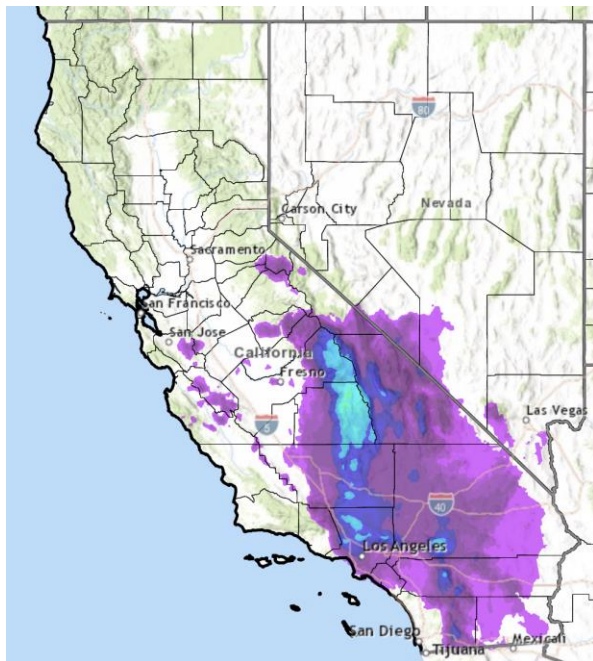

- Hot temperatures will spread across much of the state today, continuing for many inland areas through the weekend. Moderate to locally high heat risk impacts are likely.
 - Afternoon temperatures of 97 to 107 degrees are forecast over much of the Central Valley while readings of 100 to 110 degrees develop across the southern deserts (locally approaching 115 degrees for Death Valley)
 - Areas closer to the coast will also see moderate heat risk impacts today as temperatures warm well into the 90s, before cooling temperatures return by late week
- Breezy winds will maintain locally elevated fire weather conditions through the weekend for many mountain and foothill locations of Inland and Southern regions
 - At this time, widespread critical fire weather conditions are not expected
- Scattered showers and thunderstorms are likely across the southern half of California today, spreading further north into the central and northern Sierra Thursday. Thunderstorm chances will then be limited to the Sierra's Friday. Widespread heavy rainfall is not expected, but these thunderstorms could produce brief heavy rainfall, as well as strong, gusty winds and the potential for fire starts due to lightning
 - Widespread burn scar impacts are not currently anticipated

Precipitation Forecast

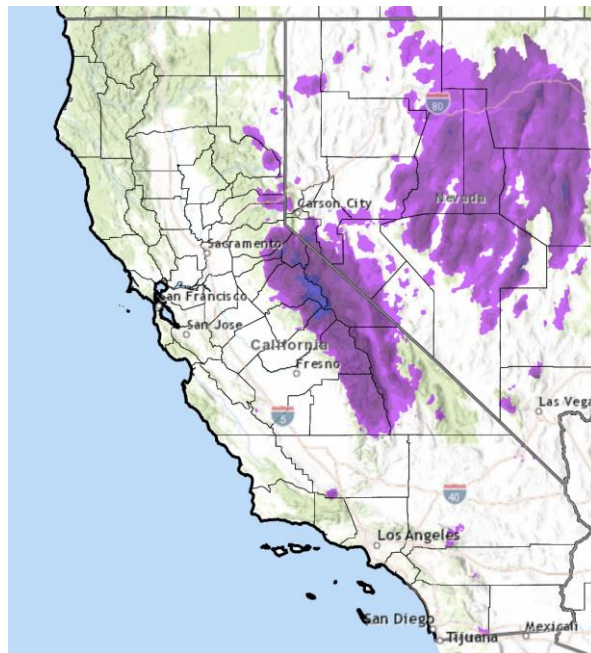

Regional Operations Center

Western Region

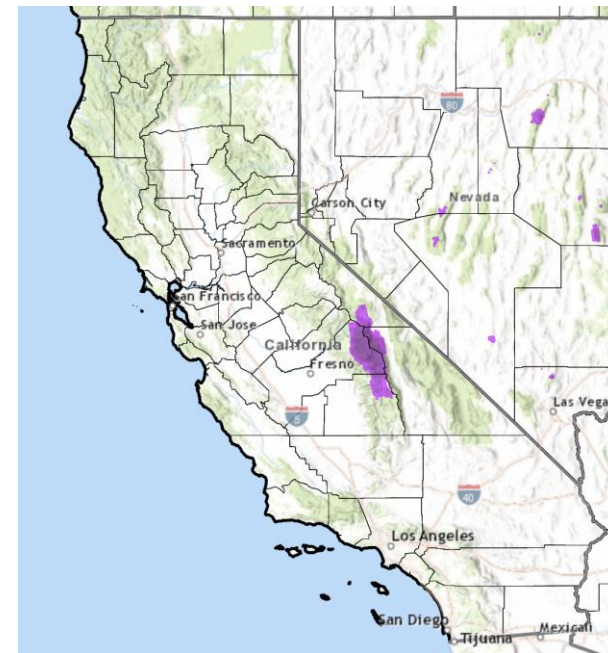

Wednesday, June 22

Wednesday

Thursday

Friday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

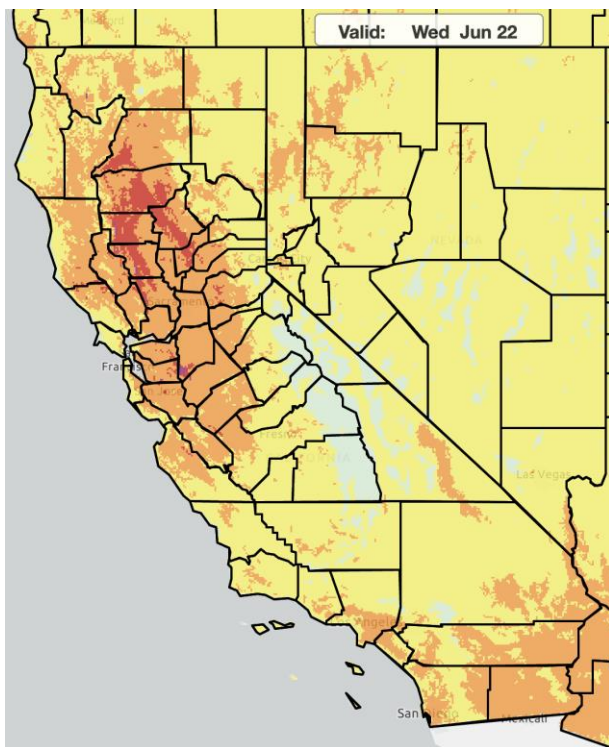

Heat Risk

Regional Operations Center

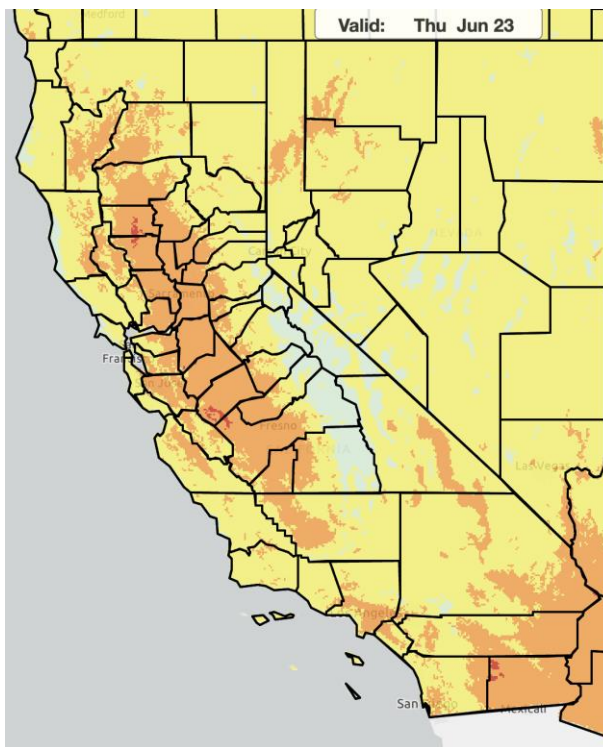

Western Region

Wednesday, June 22

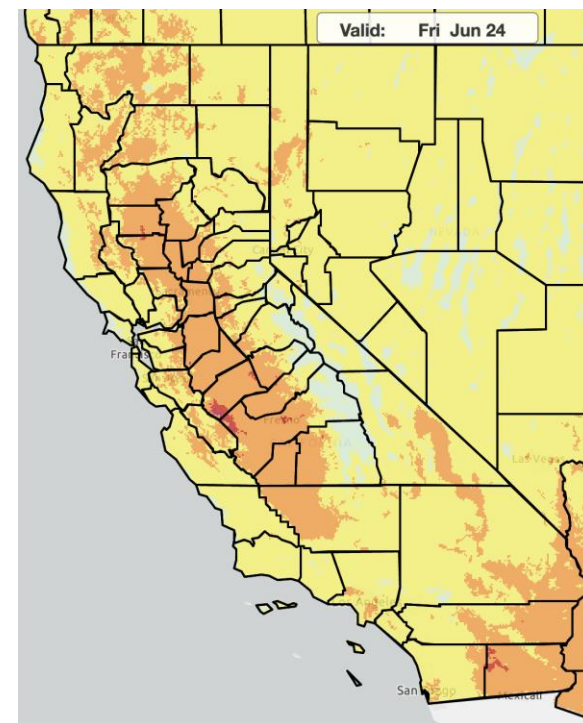

Wednesday

Thursday

Friday

Green	Level 0	No Elevated Risk
Yellow	Level 1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	Level 2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red	Level 3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	Level 4	Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Wednesday, June 22

6-10 Day Outlook (June 27 - July 1)

Temperatures

- Above normal temperatures are strongly favored across the entire state

Precipitation

- Near normal precipitation is favored for much of the state, except below normal precipitation favored near the Oregon border, and above normal precipitation favored near the Arizona border

8-14 Day Outlook (June 29 – July 5)

Temperatures

- Above normal temperatures are again favored statewide

Precipitation

- Near normal precipitation is favored for much of the state, except below normal precipitation favored near the Oregon border, and above normal precipitation favored near the Arizona border

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

- **2022-LAW-79401 06/21/22, At 1918 hours:** IERCC contacted CSWC and advised of an inReach activation at coordinates 38.028280, - 119.349800 which plots to Pacific Crest National Scenic Trail along Return Creek, Tuolumne County, Yosemite National Park. IERCC advised the RO is a 72-year-old male who is experiencing symptoms of altitude sickness (approximate altitude 9,000 feet). The RO has a hiking partner with him. RO is requesting assistance. IERCC contacted Yosemite National Park Police who advised they are in contact with the RO, assessing the situation, and developing a plan to assist him. According to IERCC the plan may include extracting him via horseback in the morning. IERCC and rangers will maintain contact with RO throughout the night to monitor the situation. **UPDATE: About 2324 hours,** IERCC advised rangers had developed a plan to extract RO via horseback on 06/22/22 about 0530 hours to relocate him to a lower elevation. **UPDATE: On 06/22/22, about 0630 hours,** IERCC advised no further update at this time. IERCC will contact LDO upon completion of incident. **MISSION ONGOING.**
- **2022-LAW-79387 06/21/22, About 1530 hours:** IERCC contacted CSWC and advised of an inReach activation at coordinates 38.073603, - 119.646456 which plots to the Pacific Crest National Scenic Trail along Falls Creek, northwest of Wilma Lake, Tuolumne County, Yosemite National Park. IERCC advised the RO activated her "SOS" button; however, there was no further information at that time. IERCC notified Yosemite National Park Police. LDO contacted IERCC and requested any additional information including the data-link for the incident. IERCC advised the RO, a hiker, is feeling ill (fever and nausea) and requested assistance. IERCC advised rangers were in communication with the RO via the inReach device, assessing the situation and coordinating an appropriate response. **UPATE: At 1724 hours,** LDO contacted IERCC for an update. IERCC advised emergency services personnel were enroute to assist the ill hiker. **UPDATE: At 2324 hours,** IERCC advised the RO had been rescued and taken via ambulance to a local hospital. **MISSION CLOSED.**
- **2022-LAW-79346 06/21/22, At 0802 hours,** CSWC received a request from the Sacramento County Sheriff's Office for two trailing dogs and two area dogs to search for a missing severely autistic child in the City of North Highlands, Sacramento County. While LDO was gathering additional information for the mission, the child was located safe. **MISSION CLOSED.**

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions (Continued)

- **2022-LAW-79340, 06/20/22, 2334 hours:** Madera County Sheriff's Office contacted the California State Warning Center (CSWC) to request assistance with cell phone forensics to aid with a missing persons case. On 06/14/22, a 58 year-old woman was staying the night at a friend's residence located in a remote area off Stumpfield Mountain Road in Mariposa County. The missing person was staying there because she was short on gas but had planned on heading to the DMV in Mariposa County the following day. The last known contact with her was on 06/15/22 when she texted a relative at 0300 hours. The missing person nor her vehicle have been seen since. The missing person has not cashed her paycheck nor has accessed her phone. Deputies checked cameras on nearby Highway 49, but her vehicle has not been seen. Deputies believe her vehicle may have veered off a cliff along the roadway. Madera County SO has utilized CHP fixed wing aircraft and local UAV technology in their search with negative results. Madera County Sheriff's Office requested Cal OES contact AFRCC to assist with cell phone forensics. LDO contacted AFRCC, provided them the pertinent information, and requested they initiate their cell phone forensics analysis. AFRCC advised it is unlikely they will be able to access data more than 72 hours prior; however, they would contact their cell phone forensics team to assist if possible. LDO re-contacted Madera County Sheriff's Office and advised AFRCC would initiate the process; however, data going back more than 72 hours may require a court order. **UPDATE:** Region II A/C advised San Mateo County Sheriff's Office had volunteered to assist with the cell phone tracking. LDO passed along the information to Madera County Sheriff's Office. About 1150 hours, LDO contacted AFRCC for an update on the mission request; however, AFRCC was unable to provide any update. LDO later learned AFRCC was unable to assist due to gap in time between initial report and current request. **UPDATE:** About 1430 hours, Madera County Sheriff's Office advised they were contacting San Mateo County Sheriff's Office to assist with their cell phone data analysis. **MISSION CLOSED.**
- **2022-LAW-79226, (Mass Fatality Exercise):** Request caches of APX8000 radios with CRIS programming for 2 mass fatality exercises in late July. COMC coordinating Chico deployment and COMC coordinating San Luis Obispo deployment.
- **2022-LAW-79175 and 2022-LAW-79182, 06/15/22:** Region IV AC created missions to assist California State Fair & Exposition Police with LEMA support (79175)and TCOMM support (79182) for upcoming California State Fair (July 15-30). **MISSION ONGOING.**

Cal OES MISSION TASKINGS

Cal OES Missions

- **2022-CalOES-78230 (New Mexico EMAC):** 1 iSat phone for EMAC deployment to New Mexico.
- **2021-TACCOM-061621 (OCFA Testing):** Sonim Kit HQ3 assigned to OCFA, to test Android phones with ATAK for fire season. ETA Return is 06/21/22. COMC monitoring. Contacted Assignee will advise on exact date of return for the resource.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
